**The Thomson Reuters Journal Selection Process for Web of Science
Citation Analysis in Context: Business, Finance, Management
Some Common Causes for Rejection
Kazakhstan in Web of Science: The Presence Today
Book Citation Index Selection Process
How to Improve Your Journal and Have Greater Impact**

*James Testa
VP Editorial Development & Publisher Relations*

JOURNAL SELECTION : MAIN OBJECTIVES

1. To evaluate and select the best scholarly journal content available today for **coverage** in Web of Science.

As a result, the Web of Science is known as the worldwide source for top tier scholarly research published in the best international and regional journals.

2. Provide the worldwide publishing community with **objective standards** useful in building world-class publications.

Thomson Reuters has built lasting partnerships with the global scholarly publishing community. We work together to improve the quality of scholarly communication everywhere in the world.

Why be Selective?

“I find that many scholars have never learned that SCI is first and foremost a tool for information retrieval – searching the literature.”

-Eugene Garfield, PhD

Thomson Reuters is in search of journals that -

- Contain the most compelling content
- Communicate that content most effectively and efficiently
- Have an influence on the surrounding literature as evidenced by citation impact

Thomson Reuters Journal Selection Process for Web of Science: Four Points of Evaluation

Journal Publishing Standards

- Timeliness of publication
- International Editorial Conventions
- English language Bibliographic Information
- Peer Review

Editorial Content

- How does this journal compare with covered journals of similar scope?
- Is this subject already well covered?
- Will this journal enrich WoS with novel content?

International Diversity: Authors, EAB

- Does this journal target an International or Regional audience?
- Is international representation among Authors and EAB members at an appropriate level for this journal?

Citation Analysis

Total Citations:

- Integration of the journal into the literature over time

Impact Factor:

- Recent citation activity

Author, EAB citations in the literature.

- Citation metrics have meaning only in the editorial context appropriate for the journal.*

Journal Citation Reports (JCR) -- 2012 Social Sciences Edition

Impact Factor Calculation

Journal: **Accounting Organizations and Society**

Impact Factor: 1.867

Cites in 2012 to articles published in :

2011 = 37
2010 = 103
Sum = **140**

Number of articles published in:

2011 = 32
2010 = 43
Sum = **75**

Calculation:

Cites to recent articles **140** = 1.867
Number of recent articles **75**

What Does Impact Factor Represent?

Impact Factor represents the average number of times recent articles in a specific journal were cited in a particular year.

What Does it Measure?

Impact Factor measures the citation performance of the journal as a whole and not of any specific article or author published in the journal.

Citation Analysis in Editorial Context

2012 Impact Factor = 2.00

Meaning?

2012 Impact Factor = 2.00

Meaning?

Journal Citation Reports

Social Sciences Edition 2012

- 3,047 journals listed,
- ~400 (14%) have Impact Factor ≥ 2.00
- 'Business' category lists 116 journal
 - Only 29 (25%) have Impact Factor ≥ 2.00
- 'Business, Finance' category lists 89 journals
 - Only 9 (11%) have Impact Factor ≥ 2.00
- 'Management' category lists 174 journals
 - Only 42 (25%) have Impact Factor ≥ 2.00

Each Category is a Carefully Defined Editorial Entity

Category Name:

Business

Category Description:

This category covers resources concerned with all aspects of business and the business world. These may include marketing and advertising, forecasting, planning, administration, organizational studies, compensation, strategy, retailing, consumer research, and management. Also covered are resources relating to business history and business ethics.

Category Name:

Business, Finance

Category Description:

Business, Finance covers resources primarily concerned with financial and economic correlations, accounting, financial management, investment strategies, the international monetary system, insurance, taxation, and banking.

Category Name:

Management

Category Description:

Management covers resources on management science, organization studies, strategic planning and decision-making methods, leadership studies, and total quality management.

...with different citation practices and dynamics

THOMSON REUTERS

Thomson Reuters Selection Process for Book Citation Index: Key Points of Evaluation

Publishing Standards

- Currency of publication (current and previous 5 years)
- International Editorial Conventions
- English language Bibliographic Information
- Peer Review

Editorial Content

- Only fully referenced scholarly books are considered.
- Books in series
- Also considered:
 - Dissertations
 - High level textbooks
 - Translations and non-English content
 - Scholarly biography
 - Scholarly reference books

Citation Analysis

- Priority given to books and book series that are relatively highly cited. Citations may originate in:
 - Journals
 - Books
 - Conference Proceedings.

Categories with more than 50% of outgoing citations from journals to books

Source: Web of Science - Citing year = 2007

ELSEVIER

Publishing on Time

Unique topic in education

Diverse Authorship and Ed Board

Fairly strong citation impact.

The screenshot shows the journal's homepage. At the top, there is a navigation bar with links for 'Sample Issue Online', 'About this Journal', 'Submit your Article', and 'Shortcut link to this Title'. Below this, there are options for 'New Article Feed' and 'Alert me about new Volumes / Issues'. The main content area displays the current issue: 'Volume 7, Issue 1, Pages 1-74 (April 2012)'. A sidebar on the left lists previous issues, including 'Volume 7, Issue 1' (April 2012), 'Volume 5, Issue 3' (December 2010), 'Volume 5, Issue 2' (2010), 'Volume 5, Issue 1' (April 2010), and 'Volume 4, Issue 3' (December 2009). The main content area features a list of articles, including an 'Editorial Board' page and two 'Research Articles'. The first research article is 'The distracting effects of music on the cognitive test performance of creative and non-creative individuals' by Maddie Doyle and Adrian Furnham. The second is 'Introducing a mentor into a children's composition project: Reflections on a process' by Millie Locke and Terry Locke. A 'Highlights' section at the bottom provides a summary of the second article's findings.

Highlights

► We explore the effect of introducing a mentor into a music composition class. ► We identify roles assumed by teacher, mentor and students in the context of a composition project. ► We identify factors that enhance student motivation and compositional skill acquisition. ► We indicate ways in which the mentor's involvement was positively effective. ► We show that student learning were highly variable and attributable to a range of factors.

Why are journals rejected for Web of Science?

Most common causes...

Late! Issues published behind schedule. Too few articles published quarterly/annually...

Low citation impact relative to subject

Lack of editorial focus, novel content; derivative or redundant studies

Format: magazine/newsletter

Why be Selective?

“I find that many scholars have never learned that SCI is first and foremost a tool for information retrieval – searching the literature.”

-Eugene Garfield, PhD

Thomson Reuters is in search of journals that -

- Contain the most compelling content
- Communicate that content most effectively and efficiently
- Have an influence on the surrounding literature as evidenced by citation impact

How Can I Improve My Journal?

1. Enrollment of more internationally high impact researcher in journal editorial board
2. Active recruitment of high-impact articles by courting researchers
3. More careful article selection
4. Offering authors better services
5. Boosting the journal's media profile
